

Waffletechnology® Cleaning Card

with MiracleMagic™ for Card Readers

Unlike a flat card, our Waffletechnology cleaning card reaches the pins inside an EMV as well as the magnetic strip reader in a card reader to provide the most thorough cleaning. Each card comes presaturated with our MiracleMagic™ cleaning agent to help safely remove dirt.

- 1 Waffletechnology® for magnetic strip
- 2 Waffletechnology® for EMV PIN Readers

BENEFITS

- Easy to use: whether point-of-sale, ATM, or a kiosk, anyone can clean your card reader
- In an NCR study, 78% of POS card readers returned for refurbishment only needed to be cleaned
- Regular cleaning has been shown to have a sizable impact on fallback rates, service costs, and card read errors

HOW TO USE

Insert or swipe card 2 times, flip card over and repeat.

THE KIC DIFFERENCE

WAFFLETECHNOLOGY®

Our patented Waffletechnology® uses raised and lowered waffles which compress and expand to clean recessed areas and around irregular surfaces where flat cards don't reach.

MiracleMagic™

We specially designed our proprietary MiracleMagic™ cleaning agent for safely removing built-up and caked-on contaminants from your device.

APPLICATIONS

- POS Card Readers
- Kiosk Card Readers
- Retail ATMs
- Deposit ATMs
- Self Check Outs
- Gas Pump Card Readers
